“.....Joni's country/folk style draws comparisons to Joan Baez.....  
unaffected delivery, and a warmth that's lacking  
in much popular music today.”  
- Fresno METRO NEWS -

"...a female James Taylor. The songs are uniformly bright and melodic, touching on  
aspects of the human condition, and definitely easy to listen to.”  
~ Steven E. McDonald, ALL MUSIC GUIDE -

On Joni's songwriting:  
" 'Wild Blossoms' ...has been recorded by a number of well known artists  
including one of my favorites, Sara Watkins of Nickel Creek.  
...an exquisitely crafted song!"  
- Fingerpick MAGAZINE

"I wasn't familiar with the work of Joni Bishop, so I had no idea what a treat I was in for  
when I first listened to Endless Christmas! ....these superb arrangements of Christmas  
favorites will spend a lot of time in my CD changer this season....she wraps her Christ-  
mas offering with unusual new upbeat tempos, creating a very expressive and pleasing  
gift....and she offers catchy arrangements of several new songs, including the title track  
(Endless Christmas)....I enjoyed listening to every song on the CD.....What a gem!"
